Reform Jewish Values Stock Fund

FOR CONGREGATIONAL INVESTING

**An opportunity to diversify your
congregation's investments while
working to build a better world.**

The only fund
that invests
according to the
values of Reform
Judaism, built
by the Reform
Movement

Socially responsible investing (SRI) has become a widely utilized and often demanded investment approach—especially for religious organizations that believe in “walking the talk.” That’s why RPB, together with Aperio Group, LLC, created the **Reform Jewish Values (RJV) Stock Fund**. It’s a unique opportunity for Reform synagogues to closely align their investable capital with their Jewish values—while generating a rate of return consistent with the global equity markets.

Aligning values with value

The fund uses a series of investment screens to incorporate the Reform Movement’s environmental, social, and governance (ESG) priorities as well as support of Israel into the portfolio. It also employs tactics such as proxy voting and shareholder engagement to create further impact that aligns with Jewish values.

RPB partnered with Aperio to create the Reform Jewish Values Stock Fund so that organizations like yours can embrace their Jewish Values through socially responsible investing.

RPB: Serving the Reform Movement for generations

Your investment capital is vital to the ongoing success of your organization, and we recognize the importance of selecting investment partners whom you can trust. RPB works only and always in the best interests of our investors. We have no shareholders to please nor revenue goals to meet. That's because, in short, we were built for you, by you.

More than 80 years ago, the Union for Reform Judaism and the Central Conference of American Rabbis partnered to create the Reform Pension Board to help ensure that those who dedicate themselves to the betterment of our community have every opportunity to achieve financial security in retirement.

Today, RPB offers a defined contribution retirement plan, as well as life and disability insurance programs for your employees. We approach our fiduciary responsibility to plan participants with utmost seriousness. A commitment to best practices drives all our thoughts and actions, guided by sound investing principles and the tenets of our Jewish Values Investing Policy.

In 2017, RPB launched the Reform Jewish Values Stock Fund as an additional investment option for our retirement plan participants, in response to the demand for an SRI/ESG investment that aligns with Reform Jewish values. Now, we're offering this fund to you, our Reform Movement congregations, so you too can invest according to these values.

Aperio: Investment solutions for complex situations

To create the RJV Stock Fund, RPB partnered with Aperio Group, a research-based investment management firm with extensive experience in designing socially responsible investing (SRI) portfolios. Aperio integrates leading social research databases and proprietary models to create a portfolio that closely matches the risk and return characteristics of a benchmark index. Stock Fund Details

INVESTMENT OBJECTIVE

Long-term principal growth

The Reform Jewish Values Stock Fund seeks growth through investing in stocks of large- and mid-capitalization companies located throughout all major regions of the world (i.e., emerging and developed markets, including the United States). It uses strategies that reduce or eliminate companies whose business practices don't adhere to the ESG principles in the URJ/CCAR/CSA resolutions, and tilt toward companies with better-performing ESG practices and exposure to Israel.

PERFORMANCE

The RJV Stock Fund's performance is measured against its benchmark, the MSCI ACWI (All Country World Index), a global index that captures large- and mid-cap stocks across 23 developed markets and 24 emerging markets. The index represents approximately 85% of the global equity investment opportunity set.

To achieve alignment with Reform Jewish values, the fund's holdings may differ from its benchmark. For more information and the fund fact sheet, visit rpb.org/congregational-investing.

PORTFOLIO CONSTRUCTION

To create a values-aligned portfolio that reflects Reform Movement values, we used the following methodology:

- 1. Align values.** RPB's Values Task Force (with representatives from RPB, CCAR, URJ, and CSA) and Aperio interpreted and aligned CCAR, URJ, and CSA resolutions with currently available ESG criteria to create a values policy statement for RPB called a Social Profile.
- 2. Determine target Social Score.** Based on RPB's Social Profile, we identified a desired Social Score for the fund that was better than the benchmark's score and also met our financial risk requirements. The Social Score provides a basis for comparing our values-aligned portfolio to its benchmark, the MSCI ACWI.
- 3. Construct the portfolio.** Aperio used their proprietary model, along with our Social Profile and target Social Score, to select the fund's securities and determine their relative weightings in the portfolio.
- 4. Evaluate and adopt the fund.** RPB's Investment Committee reviewed the portfolio and financial risk metrics, and our board adopted the fund.

RJV Stock Fund ESG Profile vs. the Benchmark

- **Social Score:** Approximately 30% higher*
- **Israel Exposure Score:** 3x higher**
- **Clean Technology Solutions Exposure:** 2.5x higher
- **Carbon Footprint:** 83% lower

* The weighted-average RPB Social Score is specific to the MSCI ACWI.

** Israel is a small percentage of the MSCI ACWI's investable equity opportunity set.
